WSP Data Collection Questionnaire

I. Introduction

This form aims to serve as a guide for personnel conducting key informant interviews (KIIs) with water service providers (WSPs) to assess the existing condition of the water services they provide. This form also provides a list of initial data/information to be requested from the WSP prior to the field work, to identify any needs for follow-up during the field visit.

II. General Information

Province	Bohol
City/Municipality	Tagbilaran
Name of Water Service Provider	Tagbilaran Water Works
Classification/Management Type	☐ Water District ☒ LGU-operated Waterworks ☐ Water Service Cooperative ☐ Barangay/Rural Water and Sanitation Association (BWASA/RWSA) ☐ Private Water Company ☐ Others, please specify:
Level of Service	☐ Level I (Point Source) – i.e., protected well, developed spring, etc. with no distribution system ☐ Level II (Communal Faucet System or Stand Posts) ☒ Level III (Waterworks System with Individual House Connections)
Name and Designation of Respondent	

III. Data Checklist

As mentioned in the introduction, the following data checklist provides the same list of data requested from the WD prior to the site visit. Indicate whether or not each item is available and has been provided to the Project Team.

Data Requested	Year/s	Ideal Format	Availability (Y/N)
1. Monthly Data Sheet (if applicable) ✓	Past 5 Years	.pdf	
2. Sangguniang Bayan Resolution No. and Date for the creation of WD/WSP and its Board (if applicable)	Most Recent	.pdf	
3. (If WD) Copy of Conditional Certificate of Conformance (CCC) (if applicable)	Most Recent	.pdf	
4. (If WD) Copy of Certificate of Local Water District (LWD) Category (if applicable)	Most Recent	.pdf	
5. Updated Layout of Existing Water Supply System (including transmission and distribution pipelines and sizes, scaled if possible)	Most Recent	.pdf / .shp	✓
6. List/Map of Existing Served Barangays or Service Areas	Most Recent	.pdf / .shp	✓
7. Potential/Proposed Expansion of Service Coverage	In 5, 10, and 15 Years	.pdf / .shp	
8. Layout of the Proposed Water Supply System Expansion	Most Recent	.pdf / .shp	
9. Location of proposed source to be developed, if any	Most Recent	.pdf / .shp	✓
10. Schematic Layout of Pumping Stations (including mechanical and electrical facilities)	Most Recent	.pdf / .shp	
11. Breakdown of Service Connection Data / See Tables 1,2&3		.pdf / .xls	
12. Billed Volume Data / See Tables 2,3, and 4	Most Recent	.pdf / .xls	✓
13. Water Production Data / See Table 5	Most Recent	.pdf / .xls	✓

Principal Station
Communal Data
Technical Data

15 Bays
is Urban
2 Rural

Data Requested	Year/s	Ideal Format	Availability (Y/N)
14. Condition of Existing Facilities: 14.1. Water Sources /See Tables 6 & 7 14.2. Treatment Facilities /See Table 14.3. Storage Facilities /See Table 6 14.4. Transmission & Distribution Pipelines /See Table 9	Most Recent	.pdf	✓
15. Photographs of existing water supply facilities	Most Recent	.pdf / .png	✓
16. Monthly and 24-hour flow measurement records in all existing pumping stations	Most Recent	.pdf / .xls	✓
17. Water Quality Test Results: Physical, Chemical, and Bacteriological Test (and how often sources are tested)	Most Recent	.pdf	
18. Schedule of Water Rates showing the meter sizes and its corresponding minimum charges and commodity charges for various connection types (i.e., residential, commercial, industrial, institutional, and government)	Most Recent	.pdf	
19. Schedule of Water Availability and Rotation (if applicable) /See Tables 2 & 3	Most Recent	.pdf	
20. SWOT Report and Development/Business Plan, if available	Most Recent	.pdf	
21. Financial Data, Gross Revenues, OPEX, and Net Income /See Tables 10 & 11	Most Recent	.pdf	
22. Funding Sources and Status of Loans /See Table 12	Most Recent	.pdf	
23. Vision and Mission	Most Recent	.pdf	✓
24. Organizational Chart	Most Recent	.pdf	
25. Table of Organization (including Plantilla and Contractual positions and qualifications and trainings of current staff) /See Table 13 13	Most Recent	.pdf	

IV. Key Informant Interview

Water Supply Service	
Refer to Tables 1 to 3 for reference on number of service connections, barangay coverage, and production.	
Barangay Service Coverage (Number of Barangays served)	7
% Water Coverage (Population with water service/Population In Service Area)	
Continuity of Service (availability of water in a year)	☐ Available all-year round ☐ Insufficient during summer ☐ Insufficient all-year round ☐ Others: _____
Reliability (Average Hours of Service per day)	
Sufficiency (Liters of production per person served per day)	
Non-revenue Water (NRW/Total Water Produced, %), indicate month as of	
Type of Source Used	☒ Deepwell ☐ Dug well/Shallow well ☐ Spring ☐ River
Total Capacity of Existing Sources (lps)	
Maximum Capacity of Existing Sources (lps)	

Type of Treatment	☒ Disinfection/Chlorination ☐ Filtration ☐ Coagulation	☐ Reverse Osmosis ☐ Others, please specify: _____
Is the Water Quality Compliant with the DOH AO 2017-0010: Philippine National Standards for Drinking Water of 2017?	☐ Yes ☐ No	☐ Do not know
When was the water last tested?	☐ Within the last six (6) months ☐ Within the last year ☐ Within the last two (2) years ☐ Within the last three (3) years	☐ Within the last four (4) years ☐ Within the last five (5) years ☐ Do not know ☐ Others, please specify: <u>every month</u>
Does the Water Service Provider have water rights for all of its water sources?	☒ Yes ☐ No	☐ Do not know
Water Supply Facilities		
Refer to Tables 4, 5, 6, and 7 for information on water sources, alternative sources, storage facilities, and transmission/distribution facilities, respectively.		
Billing and Collection		
Refer to Table 8 for billing and collection per year		
Water Rates (Php/m ³) (If WSP uses a block tariff system, please provide the water rate schedule as an attachment)	Residential/Domestic	
	Commercial/Industrial	
	Institutional/Government	
	Bulk/Wholesale	
	Average All-In Tariff Rate	
Financing (for Water Districts only)		
Refer to Table 9 and 10 for breakdown of financial data and funding sources, respectively.		
Credit Classification (If WD)	☐ Creditworthy (CW) ☐ Semi-Creditworthy (SCW) ☐ Pre-Creditworthy (PCW) ☐ Non-Creditworthy (NCW)	

Type of Service Connection	Year to Date	2024	2023	2022	2021	2020
Residential	2025 - 6254	✓ 6393	6136	5986	5886	5545
Commercial/Industrial	31	35	34	34	34	34
Institutional/Government	27	33	33	33	33	33
Bulk/Wholesale						
Total						
Total active connections, annual (count)		✓				
Total metered connections, annual (count)		✓				
Total billed connections, annual (count)		✓				
Population served (count)						
Population in service area (count)						

Year to date: January to June 2025

[illegible]

	Barangay Name	Number of Service Connections				Annual Billed Volume (cu.m per year)				Water Availability (hours/day)
		Residential	Commercial	Institutional	Bulk	Residential	Commercial	Institutional	Bulk	
12										
13										
14										
15										
16										
17										
18										
19										
20										
	TOTAL									

Table 3: Number of Service Connections and Annual Billed Volume per Barangay

Year to date: January to December 2024

[illegible]

	Barangay Name	Number of Service Connections				Annual Billed Volume (cu.m per year)				Water Availability (hours/day)
		Residential	Commercial	Institutional	Bulk	Residential	Commercial	Institutional	Bulk	
18										
19										
20										
	TOTAL									

Table 4: Billed Volume Data (5-year history)

Billed Volume (cum/yr)	Year to Date	2024	2023	2022	2021	2020
Residential	JAN - AUG	✓				
Commercial/Industrial						
Institutional/Government						
Bulk						
Unmetered billed						
TOTAL BILLED VOLUME (cum/year)						

Table 5: Commercial and Operational Data (5-year history)

Data	Year to Date	2024	2023	2022	2021	2020
Annual Water Production (m³)	JAN - AUG	✓				
Annual Billed Volume (m³)						
Non-revenue Water (%), if available						
Annual power consumption, kw-hr						
Annual power cost, Php per year						
Annual other energy cost (oil, fuel, etc), Php per year						
Annual total chlorine consumed, kgs per year						
Annual total chlorine cost, Php per year						

Table 6: Description and Condition of Water Sources, Pumping, and Treatment Facilities

Source Type (Deep wells, Springs, Rivers, bulk, etc.)	Location		Year Constructed	Discharge (lps or m ³ /day)	Water Treatment Facility (type and condition)	Pump & motor specifications	Water Quality (description, date of last sampling and result)	Remarks
	Name/Address	Coordinates						
1.	TIPTIP RS. 1		✓	✓				
2.	TIPTIP RS. 2		✓	✓				
3.	DAO RS. 3		✓	✓				
4.	TIPTIP RS. 4		✓	✓				
5.	DAO RS. 5		✓	✓				
	DAO RS. 6 - ABANDONED		✓	✓	ABANDONED			
	DAO RS. 7		✓	✓				
	DAO RS. 8		✓	✓				
	POOL - RS. 9		✓	✓				
	SANISIMO RS. 10		✓	✓				

Table 7: Proposed/Alternative Sources

Source Type (Deep wells, Springs, Rivers, etc.)	Location		Current Use (domestic, industrial, irrigation, etc.)	Water Body Classification ¹	Estimated Discharge (lps or m ³ /day)	Availability of Water Quality Test Results (Y/N)	Ownership of Water Rights (private, NIA, LGU, etc.)
	Address	Coordinates					

Notes:

1. DAO 2016-08: Water Quality Guidelines and General Effluent Standards of 2016

Table 8: Description and Condition of Storage Facilities

Type (Ground/Elevated/ Underground)	Location		Year Constructed	Material	Volume (m ³)	Dimensions (m)			Operational/non- operational	Remarks
	Name	Coordinates				Bottom Height ¹	Top Height ²	Diameter or Length- Width		
1.										
2.										
3.										
4.										
5.										

Notes:

1. Bottom Height = measure from ground to bottom of tank
2. Top Height = measure from ground to top of tank

Table 9: Description and Condition of Transmission and Distribution Pipelines

Pipe Size (mm diameter)	Year Installed	Length (m)	Material	Problem/Deficiency

Table 10: Billing and Collection Data

Billing and Collection Data	Year to Date	2024	2023	2022	2021	2020
Annual Billing (Water Sales), PhP per year						
Annual Collection (Water Sales), PhP per year	JAN - DEC	22,882,655.67	23,144,634.58	21,121,407.28	19,858,823.78	18,741,029.64
Accounts Receivable, PhP per year						

Billing and Collection Data	Year to Date	2024	2023	2022	2021	2020
Collection efficiency, %						

Table 11: Financial Data

Financial Data	Year to Date	2024	2023	2022	2021	2020
Annual gross revenue, Php per year	JAN - DEC	22,882,685.67	23,144,634.58	21,121,407.28	19,858,823.78	18,791,029.87
Annual operating expenses, Php per year	JAN - DEC					
Annual net revenue, Php per year	JAN - DEC					

Table 12: Funding Sources

Source of Funding	Year/Date of Availment	Type of Funding (loan, grant, subsidy)	Funding Amount	Repayment Period	Interest Rate	Purpose	Other Remarks
